

## Recover Deleted Text Messages on iPhone 7/plus

Scritto da DJEmily - 18/10/2016 14:09

---

Many of us may encounter the same trouble in our daily lives. Always deleted iPhone 7 or iPhone 7 plus text messages is caused by many different reasons:

- Wrong operation: deleting text messages unconsciously;
- iPhone 7/plus Jailbreak;
- iPhone 7/plus factory settings;
- iOS upgrade failure;
- iPhone 7/plus has been lost or stolen;
- iPhone 7/plus was damaged, broken, smashed.

If you happened like the situation mentioned above, how to recover deleted text messages on your iPhone 7/plus? This problem might have puzzled a number of iPhone users for a long time, so it is with me. My answer is "YES"! I happened to know a very powerful software, called Dr.Fone for iOS. I can't wait to share you with this magic tool. The top iPhone Data Recovery can help you recover deleted text messages from iPhone 7/plus easily, with or without any backup. Keep reading and details are shared below.

Note: When you delete some text messages or other data from iPhone 7/plus by accident, what you need is to turn on Airplane Mode or power off your iPhone directly and then, back up iPhone with iTunes or iCloud just in case of deleted data being overwritten by new added data.

The top iPhone Data Recovery can not only recover deleted or lost iPhone 7/plus text messages with or without backup, but also recover deleted any iOS data like Whatsapp messages, notes, contacts, call history, voice memos, Voicemail, Safari history or bookmarks, photos, videos, etc, from all iPhone, iPad and iPod Touch directly, without wiping any data on your iOS device. So cool, right? The most attractive function of iPhone Data Recovery lies in that it also supports previewing and retrieving deleted texts selectively.

So, here I would like to introduce you how to recover deleted text messages from iPhone 7/plus easily with Dr.Fone for iOS in 3 ways:

1. Recover deleted text messages directly from iPhone 7/plus
2. Recover iPhone 7/plus text messages from iTunes backup
3. Recover iPhone 7/plus text messages from iCloud backup

Download the Top iPhone 7/plus Data Recovery and install it on your computer before we start.

[Download Windows](#) | [Download Mac](#)

Method 1. Recover deleted text messages directly from iPhone 7/plus

Step 1. Connect your iPhone 7/plus to scan it

Launch the program, connect your iPhone to your computer. Then run Dr.Fone for iOS - iPhone Data Recovery and choose "Recover from iOS Device" from the side menu on the right. When the program recognize your iPhone, you'll see the window below. If you only want to recover text messages on your iPhone, you can only check "Messages & Attachments", and click on the "Start Scan" button appearing in the window to scan your iPhone 7/plus. Don't disconnect your iPhone during the scanning process.

Step 2. Preview and recover deleted text messages on your iPhone 7/plus

When the scan is complete, you can choose "Messages" and "Message Attachments" to preview all of the found text messages one by one. Then selectively recover the items you need. When clicking "Recover", a pop-up will ask you to recover to your device or computer. If you choose "Recover to Device", then recovered text messages will be saved on your iPhone. Also, you can save them to your computer as well. Besides, the deleted iMessage contents can be found too, including text, emoji and attachments.

Method 2. Recover iPhone 7/plus text messages from iTunes backup

Step 1. Scan to Extract your iTunes backup

Choose the recovery mode of "Recover from iTunes Backup File" first. Then select the backup you want to recover text messages from in the list, and click on the "Start Scan" button to extract the backup content. All backup files existing on your computer are available for extraction.

Step 2. Preview and retrieve messages for iPhone 7/plus

The scan only takes you a few seconds. After it, you can preview and recover any messages in the menu of "Messages" and "Message Attachments". When click "Recover", you'll be asked to recover to your device or computer. If you keep your iPhone connected to your computer via the USB cable, then choosing "Recover to Device" will save messages to your iPhone. If not, then the text messages will be saved to your computer.

Method 3. Recover iPhone 7/plus text messages from iCloud backup

Step 1. Sign in with your iCloud account

Switch to the recovery mode of "Recover from iCloud Backup File" on the left side of the program's window.

First of all, enter your iCloud account and the password to sign in. Once you're in, you can begin the downloading and extracting work. Never need to worry about your the security of your account. Wondershare won't keep any information of your account or data during your sessions.

[http://img.over-blog-kiwi.com/2/03/91/08/20160609/ob\\_b7f43d\\_05.jpg](http://img.over-blog-kiwi.com/2/03/91/08/20160609/ob_b7f43d_05.jpg)

Step 2. Download and extract your iCloud backup

Once you're in, you can see a list of all your iCloud backup files under this account. Choose the one for your iPhone, the latest one will be the best. Check 'message' and 'message attachments' on the pop-up window if you don't want to download all data there. By doing this, it only download text messages and

the attachments, saving you time. Of course, you can choose all if you have a need.

When the download is complete, continue to extract the downloaded backup file by clicking on the "Scan" button appearing on it. Since the backup file is unreadable, you have to extract it for reading and recover deleted iPhone messages from it.

### Step 3. Preview and recover iPhone messages

Once the scan stops, you can preview all the text messages in the iCloud backup file. Choose the text messages you need and click "Recover". Both "Recover to Device" and "Recover to Computer" are available. I suggest you connect your iPhone with your computer through a USB cable and choose the "Recover to Device". It's more convenient for you to view the messages on your iPhone than on your computer.

Editors Tips: In the above, we use the iPhone 6 Plus as an example, recover deleted text messages from iPhone 7/plus for the same recovery method. So you can get them easily. Let's do it.
